

## IN TOUCH WITH THE STARS

From the beginning of our civilization, the times of Zoroaster and Babylon, man has attempted to reconnect to the universe with its magnificent and mysterious beauty of shimmering lights in the night sky.

The images for "IN TOUCH WITH THE STARS" came to me quite intuitively while reminiscing about all the extraordinary people that I have encountered in my life so far.

All of them unique as an individual but united by striking characteristic parallels that are reflected in these 12 different star identities.
